FUJITSU

shaping tomorrow with you

Your perfect travelling companion

The LIFEBOOK S936 Notebook

Work's what you do, not where you are. The light, powerful **LIFEBOOK S936** gives you what you need to stay productive on the move.

Its crystal clear screen, backlit keyboard and long-lasting battery help you work anywhere. You can stay connected using 4G, LTE or near field communication (NFC). And you know your data is protected against fraud thanks to a built-in biometric sensor. Alongside security and stamina, it has style: this sleek notebook uses a magnesium housing to remain light but resilient. Access the information you need from home, while travelling, or back at the office.

The LIFEBOOK S936 is the right choice for customers looking for:

Easy integration – Windows 10 operating system

Security – embedded biometric PalmSecure sensor, integrated SmartCard reader, encrypted disk and trusted platform module option

Mobility – up to 21 hours battery runtime, sturdy yet light, enterprise connectivity with 4G/LTE or NFC

Comfort – high resolution display with touch or non-touch option, backlit keyboard and port replicator to connect to multiple peripherals

Key features

- **Wide screen** – 13.3in (33.8cm)
- **Lightweight** – from 1.19kg
- **Long battery life** – up to two working days (with a second battery)
- **Modular bay** – for optional disk drives and extra battery

Did you know...?

- Our products have to pass more than ten different tests before we release them to the market – including vibration, shock and drop, open and shut, and noise emission tests.
- PalmSecure is the most accurate biometric check yet. There's only one false acceptance for every 10,000 scans. It's already used by 200 million users worldwide.
- We operate Europe's most advanced integrated IT production site in Germany.
- Through our Made4You program, we have several ways to customize devices – including different colours, logo-lasering and custom software loading.
- Windows 10 is Microsoft's most secure Windows yet. Its built-in security features safeguard against viruses, phishing, and malware. And automatic updates ensure you always have the latest protection.

 **Windows 10**

Accessories and warranty

Port replicator for LIFEBOOK S936

Slim & Light AC Adapter

Second battery for modular bay

Including 2 year warranty. Optional 3 or 5 year warranty pack.

PalmSecure: a powerful biometric technology

Unlike passwords or ID cards, biometrics are extremely hard to steal or copy. And they are impossible to forget. PalmSecure uses the unique palm-vein pattern hidden in your hand to recognize you. You simply place your palm over the sensor to unlock your device, then get on with your work. It's quick, secure and accurate.

Windows 10

Today's and future security challenges and threats require a combination of measures on one platform. Our devices feature biometric sensors and work well with Windows 10 – Microsoft's most secure Windows yet. Its built-in security features safeguard against viruses, phishing, and malware through Device Guard, Enterprise Data Protection, and Trusted Boot.

Exceptional performance. Exceptionally secure.
