# Most secure professional tablet

The **STYLISTIC Q736 Tablet**

Don't wait until you're back at your desk to see and update information. Work smarter with the wide-screen, ultra-secure and flexible **STYLISTIC Q736** tablet.

Enter data with a pen. Navigate apps with your fingers. Or attach a keyboard and use it like a notebook. The Q736 lets you get your work done, the way you want to. With built-in 4G/LTE, GPS and near field communication (NFC), you're always connected. While the biometric palm-vein sensor keeps data safe. Use it on your rounds, running your event or simply working out of the office.

The **STYLISTIC Q736** is the right choice for customers looking for:

**Easy integration** – Windows 10 operating system

**Flexibility** – a 2 in 1 device. Use it as a tablet or a notebook

**Security** – biometric PalmSecure sensor

**Productivity** – a tablet with large screen and hand or shoulder strap. See all your content – even tables and spreadsheets – on the move

**Connectivity** – built-in 4G/LTE, GPS, WLAN and NFC

## Key features

- **Wide screen** – 13.3in (33.8cm)
- **Lightweight** – from 990g
- **Long battery life** – up to 9.5 hours (or 15 with a second battery)
- **Anti-glare screen** with touch and **pen input** – ideal for capturing signatures
- **Shared cradle** with other STYLISTIC models

## Did you know...?

- PalmSecure is the most accurate biometric check yet.
- You can easily equip legacy systems with PalmSecure technology, thanks to our broad range of accessories containing palm-vein sensors.
- We have been creating innovative mobile devices for more than 30 years – including the first tablet with palm-vein recognition, in 2014.
- Our products have to pass more than ten different tests before we release them to the market – including vibration, shock and drop, open and shut, and noise emission tests.
- Green IT is at the heart of our product development, from low energy consumption to the re-use of parts. A wide range of our products are ENERGY STAR®-certified.
- Windows 10 is Microsoft's most secure Windows yet. Its built-in security features safeguard against viruses, phishing, and malware. And automatic updates ensure you always have the latest protection.

 **Windows 10**

## Accessories and warranty

STYLISTIC cradle

Keyboard docking  
(with or without battery)

USB to VGA  
conversion cable

Including 2 year warranty.  
Optional 3 or 5 year warranty pack.

## PalmSecure: a powerful biometric technology

Unlike passwords or ID cards, biometrics are extremely hard to steal or copy. And they are impossible to forget. PalmSecure uses the unique palm-vein pattern hidden in your hand to recognize you. You simply place your palm over the sensor to unlock your device, then get on with your work. It's quick, secure and accurate.

## Windows 10

Today's and future security challenges and threats require a combination of measures on one platform. Our devices feature biometric sensors and work well with Windows 10 – Microsoft's most secure Windows yet. Its built-in security features safeguard against viruses, phishing, and malware through Device Guard, Enterprise Data Protection, and Trusted Boot.

## Exceptional performance. Exceptionally secure.
